Step 3: Choose your preferred MFA method (email or authenticator app) and complete the authentication process.

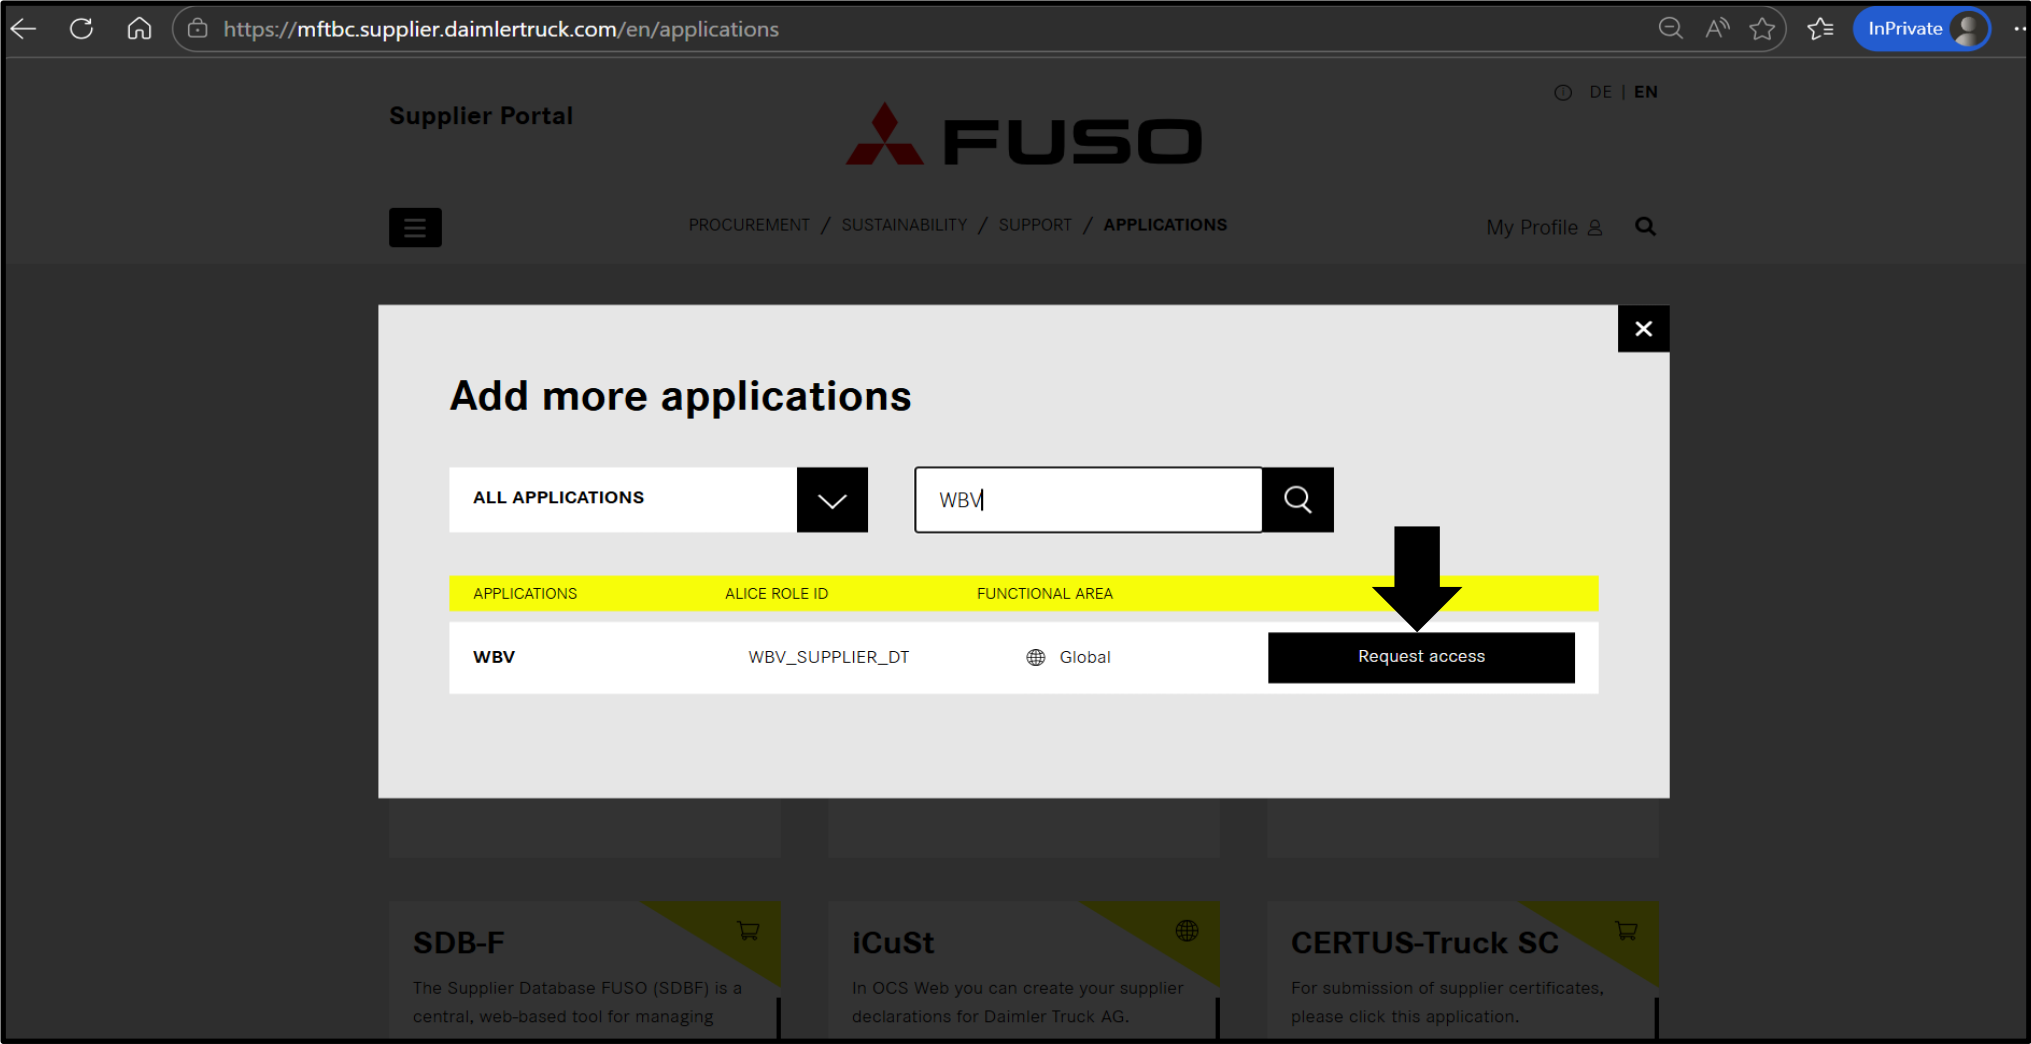

Step 4: Click on “**Apply for new applications**” on the homepage of the FUSO Supplier Portal.

Step 5: Enter the name of the desired application under “**Search for application**”.

Step 6: Once the requested application appears, click **“Request Access”** and ensure your Org Admin approves it.

Step 7: After clicking **“Request Access”** your request is submitted and remains in **“Waiting for confirmation”** until approved by your Portal Manager.

The screenshot shows the FUSO Supplier Portal interface. At the top, the URL is <https://mftbc.supplier.daimlertruck.com/en/applications>. The page header includes the FUSO logo and navigation links: PROCUREMENT / SUSTAINABILITY / SUPPORT / APPLICATIONS. A notification box in the top right corner states: "Request successful. Your request has successfully been processed." Below this, a modal window titled "Add more applications" is displayed. It features a search bar with "WBV" entered and a dropdown menu set to "ALL APPLICATIONS". Below the search bar is a table with the following data:

APPLICATIONS	ALICE ROLE ID	FUNCTIONAL AREA	
WBV	WBV_SUPPLIER_DT	Global	Waiting for confirmation

At the bottom of the page, there are three promotional tiles: "SDB-F" (The Supplier Database FUSO (SDBF) is a central, web-based tool for managing...), "iCuSt" (In OCS Web you can create your supplier declarations for Daimler Truck AG.), and "CERTUS-Truck SC" (For submission of supplier certificates, please click this application.).
